DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 32-39, drawn to a calibration system.

Group 2, claim(s) 40 and 41, drawn to a calibration system.

Group 3, claim(s) 42-46, drawn to a platform for supporting a housing.

Group 4, claim(s) 47-56, drawn to an apparatus for adjusting the angle of an object.

2. The inventions listed as Groups 1-5 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

a. Group 1 recites a calibration system comprising, *inter alia*, a second housing. This feature is not recited in Groups 2-4.

b. Group 2 recites a calibration system comprising, *inter alia*, a cable and cable mounting device. This feature is not recited in Groups 1, 3, and 4

- c. Group 3 recites a platform for supporting a housing comprising a movable lifting mechanism wherein complementary parts can be in contact with each other in a first position, and not in contact with each other when in a second position. This feature is not recited in Groups 1, 2, and 4
 - d. Group 4 recites an apparatus for adjusting the angle of an object comprising a ball and a track. This feature is not recited in Groups 1-3.
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
